## COPPER-FREE COMMERCIAL VEHICLE BRAKE PADS.

ZOOM 2.5X

Compliance with cadmium, chromium, lead, mercury and asbestos requirements

Compliance with Level A requirements, with copper levels less than 5 percent by weight

Compliance with the 'zero-copper' requirement, i.e. a copper level of less than 0.5 percent by weight

JURID® is one of the first manufacturers to introduce copper-free brake pads for commercial vehicles. We mark our brake pads with the N Leaf Mark, indicating that they contain less than 0.5% copper. By introducing the N Leaf Mark for our commercial vehicles, we commit ourselves to using the best technologies and following the most stringent of regulations. In doing so, JURID complies with US legislation requiring level B, which stipulates less than 5% from January 2021, and legislation requiring level N, which stipulates less than 0.5% from January 2025.

### YOU CAN RECOGNISE THE COPPER-FREE BRAKE PADS BY:

- The N Leaf Mark label on the box
- The N21 marking on your brake pad
- Refer to our product specifications on TecDoc

### Quality is in the details

## COPPER FREE SOLUTION
